

Midjourney Getting Started Guide

Welcome to Midjourney, your portal to transforming text into amazing images and videos! If you're ready to unleash your creativity, this guide is your first step to crafting stunning creations and exploring endless possibilities.

Subscribing to Midjourney

Before you dive into creating your first masterpiece, you'll need to subscribe to one of our plans. Here's how you can get started:

- Log In to midjourney.com: [Logging In & Connecting Accounts](#)
- Select a Plan: [Comparing Midjourney Plans](#)

Making Your First Image

Video tutorial: Watch this quick [video tutorial on making your first image](#) below.

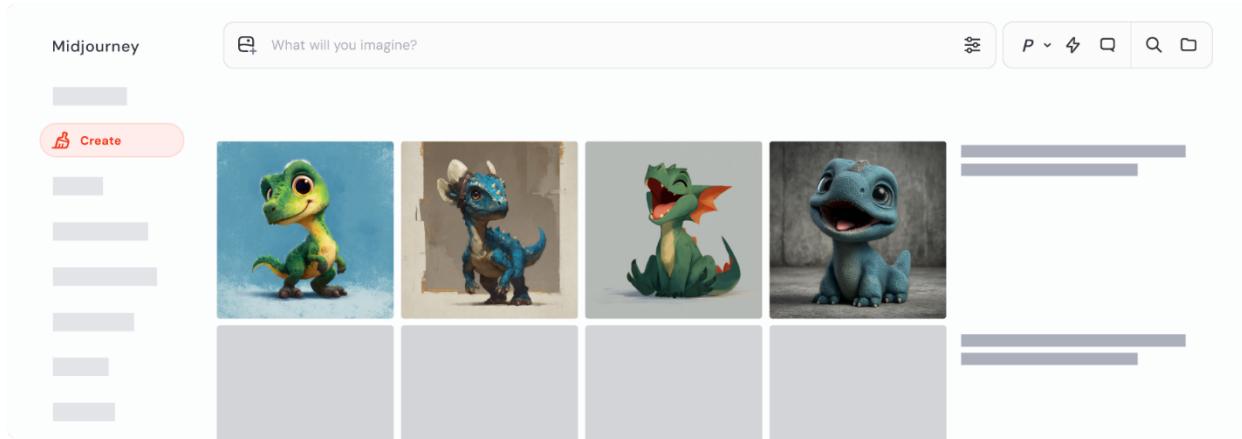

1. **Visit Your Create Page:** Go to the [Create](#) page on midjourney.com. This is where your images come to life, and you can see them appear in real-time.
2. **Use the Imagine Bar:** At the top of the page, you'll see the Imagine bar. Here, type what you'd like to see, this is your prompt.

What will you imagine?

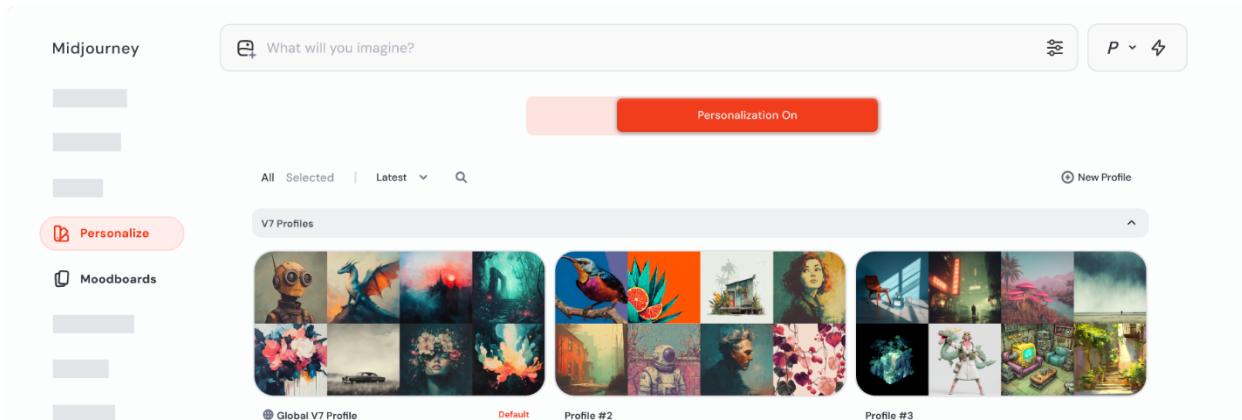

3. **Generate Your Image:** After pressing Enter or the send button if you're using a mobile device, Midjourney creates a set of four images. Watch as your images take form.
4. **Congratulations!** Once it reaches 100%, you're done! You've created your first Midjourney images.

Writing and crafting prompts can be an art in and of itself. To learn more, check out our [Prompt Basics](#) and [Art of Prompting](#) articles.

Personalize Midjourney

Midjourney is even better when personalized. Create [moodboards](#) and custom [personalization profiles](#) that will help Midjourney generate images that uniquely match your individual style!

Continue Working on Your Images

The creativity doesn't stop here! Learn how to enhance and refine your creations using upscalers, variations, zoom out, pan, editor, and more in our [Modifying Your Creations](#) article.

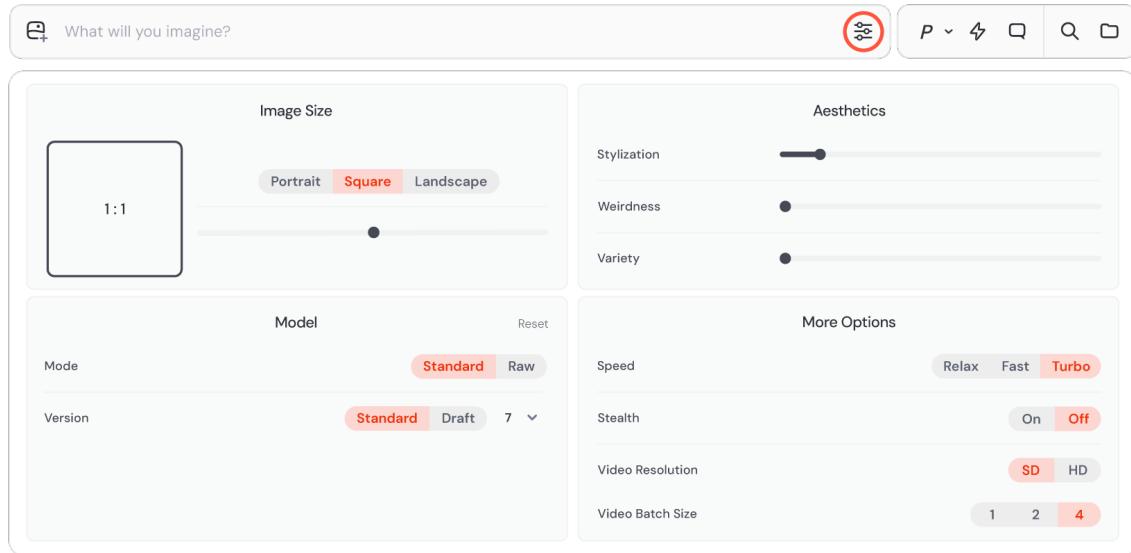

Turn Images into Videos

Make your images come alive by transforming them into videos! Learn how to animate both your Midjourney creations and your own images on our [Video](#) article.

Customizing Your Settings

You can change your default image generation settings at any time by clicking on the settings icon  in the Imagine bar.

For more information on each setting, check out these articles: [Aspect Ratio \(image size\)](#), [Raw Mode](#), [Version](#), [Draft Mode](#), [Stylize](#), [Weird](#), [Variety](#), [GPU Speed](#), [Stealth](#), [Video Resolution](#), and [Video Batch Size](#).

Using Images in Your Prompts

Did you know that you can also provide Midjourney with images—not just text—to guide your creations?

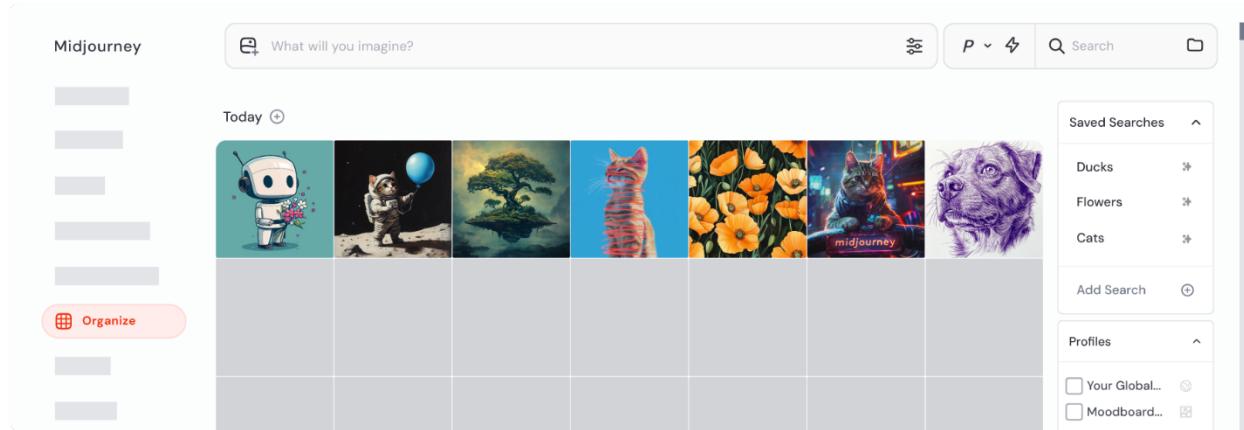

- [Starting Frame](#) lets you create a video from your image.
- [Image Prompts](#) let you influence content, composition, style, and colors.
- [Style References](#) help you match the look and feel of another image.
- [Omni References](#) help you use the same character or object in multiple images.
